Lyrics generator & song searcher based on an artist

Idea 1: fetch 10 titles from Spotify (1), pass through ChatGPT to remix lyrics (2)

Train model on the artist (1), then have it create lyrics based on another artist's song lyrics(?) (2)

Idea 2: search songs through keyword (1), google search facts about the song (2)

Idea 3: search all songs from an artist (1), then find a set of songs based on a set of keywords (2?)
